

Bábolna Bio

PROTECT[®] COMBI

Ant Bait

**Unique combination of active ingredients
with slow killing action and queen sterilizing effect**

**Kills both the foraging workers and
the individuals living in the nest**

Bábolna Bio
The European Company

PROTECT[®] COMBI Ant Bait

ACTIVE INGREDIENTS:

0.25 % S-methoprene
0.10 % Acetamiprid

PHYSICAL AND CHEMICAL PROPERTIES:

Appearance: granules
Odour: no
Colour: yellow
Stability: stable under normal condition
Storage: 2 years in original package at cool places
Conditions to avoid: direct heat, high temperature

ADVANTAGES:

- Sure action and durable ant-free state due to its dual active ingredient content
- Perfect eliminator for the black (garden) ants (Lasius niger, Lasius neglectus)
- Killing not only workers ants, but also queens (whole nest)
- Containing **Bitrex** which prevents accidental intake by people and pets
- Bait station in easy to use packaging
- Active ingredients will be supported under the EU Biocidal Product Directive

DIRECTIONS FOR USE:

Cut off the top and fasten the bait station with the adhesive disc either in vertical or horizontal position. Suitable surface is along the foraging routes of the ants. Do not stick the station to porous or humid place. While using the product, do not apply any other insecticides or chemicals as this may degrade the efficiency of the bait.

PACKAGING: 3 bait stations (2.0 g each)
