

For the control of mice. The glue is non-toxic, non-flammable, colourless and odourless. Its quality does not deteriorate under the influence of water and humidity.

ACTIVE INGREDIENTS: None

PHYSICAL PROPERTIES, APPEARANCE:

Glue in tube, packed in a box.

TOXICOLOGY

As this trap does not contain any toxic insecticide, it is environmentally safe.

DETAILS OF THE APPLICATION:

- Pierce the tube and push glue evenly on a 20x10 cm sized wooden, carton or other board in a 2 to 4 mm thick layer.
- Place the board to sites preferred by rodents or near harbourages.
- Efficacy can be improved with attractant (e.g. cheese, nut, etc.) placed on the adhesive surface.
- Check the trap sites regularly.
- Remove the dead rodent together with the sticky paper/tray and put it into a plastic bag. Place the bag in a household waste bin.
- If necessary, can be removed with wound petrol.

USES:

By grasping its cord, pull the ribbon out of the tube. Hang it up in a draught-free place. If the weather is cold, keep the product at room temperature before use.

WARNING:

The product should be applied according to the directions for use and also by keeping the general safety regulations pertaining to such products. Do not touch the sticky surface by hand! Wash hands after use.

PRODUCT FOR AMATEUR USE
